

APPLICATION

Scholarship Applications may be obtained from the Campus Representatives, downloaded from the OSGC website - <http://www.osgc.org/pdf/SchApp.pdf>, or by contacting the Space Grant Main Office.

To be considered for the 2009-2010 Scholarship Program, a complete application package consisting of the materials listed below must be submitted by **March 1, 2009**. Additionally, prospective applicants are expected to discuss the program with their university's Ohio Space Grant Consortium Campus Representative before completing the application. Campus Representatives are listed on the reverse side of this Announcement.

- Completed Scholarship Application form, including essay/project proposal
- Official College transcripts
- Two completed Scholarship Recommendation forms, at least one from a faculty member in the applicant's department

It is the applicant's responsibility to obtain application materials and to request recommendations and transcripts in sufficient time to meet the application deadline. There will be no exceptions for late applications.

DELIVER TO: Space Grant Scholarship Program
c/o Appropriate Campus Representative listed on the reverse side.

EVALUATION

Selection is competitive and will be based upon the applicant's academic record, written letters of recommendation, and the applicant's personal statement and project proposal. Separate evaluation of applicants and award of Scholarships will take place at each member university. Written notification of award of scholarship will be mailed in Spring, 2009.

2009-2010

JUNIOR/SENIOR

SCHOLARSHIP

PROGRAM

ANNOUNCEMENT

www.osgc.org

JUNIOR/SENIOR SCHOLARSHIP PROGRAM

To encourage United States' citizens to pursue advanced education, the Ohio Space Grant Consortium (OSGC) and its member universities provide financial support through competitively awarded scholarships to Juniors and Seniors studying in Aerospace-related engineering and science.

These scholarships are funded through the Congressionally sponsored National Space Grant College and Fellowship Program, administered by the National Aeronautics and Space Administration (NASA). Matching funds are provided by member universities, the Ohio Aerospace Institute, and private industry. Undergraduate students who are U. S. citizens, and who expect to be juniors or seniors at one of the following member universities by the Fall, 2009 term are encouraged to apply for a scholarship.

- Case Western Reserve University
- Cedarville University • Central State University
- Cleveland State University • University of Dayton
 - Marietta College (Petroleum Engineering)
- Miami University (Manufacturing Engineering)
 - Ohio Northern University
 - The Ohio State University
 - Ohio University
 - The University of Akron
 - University of Cincinnati
 - The University of Toledo
- Wilberforce University • Wright State University
 - Youngstown State University

Aerospace-related disciplines include:

- Aeronautical Engineering • Aerospace Engineering
- Astronomy • Biology • Chemical Engineering
 - Chemistry • Civil Engineering
 - Computer Science and Engineering
 - Control Engineering • Electrical Engineering
 - Engineering Mechanics • Geography • Geology
- Industrial Engineering • Manufacturing Engineering
- Materials Science and Engineering • Mathematics
- Mechanical Engineering • Petroleum Engineering
 - Physics • Systems Engineering

THE JUNIOR SCHOLARSHIP ELIGIBILITY

Scholarships are available to Juniors who are United States citizens, and who are studying in an Aerospace-related discipline at one of the member universities. Members of underrepresented groups including women, minorities, and persons with disabilities are encouraged to apply.

REQUIREMENTS

Applicants for a Junior Scholarship should reasonably expect to complete the requirements for the BS Degree no later than August, 2011. Junior Scholars are required to propose and initiate a research project on campus under the guidance of a faculty member. Occasional, voluntary participation in activities associated with campus OSGC programs may be requested by the OSGC Campus Representative. Applicants for a Junior Scholarship must include as part of their application a one-page personal objective statement that discusses their career goals and anticipated benefits to be derived from the Space Grant program. Tentative plans for the above-mentioned research project should also be discussed in this statement. Junior Scholars are required to attend the annual Spring Research Symposium sponsored by the Space Grant and present a poster on their research project.

AWARD AND TENURE

The Junior Scholarship is a one-year award of **\$3,000** paid incrementally in September and January. Scholarships begin with the Fall, 2009 term. Appropriate adjustments in payment dates will be made for students participating in a co-op program. Junior Scholars will be renewed as Senior Scholars the following year if academic performance is acceptable, and good progress has been made on the Junior research project with plans for the Senior year.

THE SENIOR SCHOLARSHIP ELIGIBILITY

Scholarships are available to Seniors who are United States citizens, and who are studying in an Aerospace-related discipline at one of the member universities. Members of underrepresented groups including women, minorities, and persons with disabilities are encouraged to apply.

REQUIREMENTS

Applicants for a Senior Scholarship should reasonably expect to complete the requirements for the BS Degree no later than August, 2010. Applicants for a Senior Scholarship are required, as part of the application, to propose a research project to be conducted under the guidance of a faculty member. The project should involve collaboration with the faculty project advisor and/or with graduate students in the laboratory. The proposal must indicate when the research will be conducted and must be signed by the project advisor. In either case, the project must be conducted in a campus laboratory and should involve the applicant in a research program. Senior Scholars are required to attend and make a brief oral presentation of their research at the annual Spring Research Symposium sponsored by the Space Grant. Occasional, voluntary participation in activities associated with campus OSGC programs may be requested by the OSGC Campus Representative.

AWARD AND TENURE

The Senior Scholarship is a one-year award of **\$4,000**. It will be paid incrementally in September and January of the academic year.

Ohio Space Grant Consortium
22800 Cedar Point Road
